

# MINI PAK'R™

## AIR CUSHION SYSTEM

RETAIL

## 4 reasons to use MINI PAK'R™

Do you want to protect your products during transport? This is possible with the MINI PAK'R™. It is a small, simple air cushion machine that makes it possible to produce air cushions when and where you need them. You can choose from five types of air cushions that can be used for different purposes.

Ergonomic design

Space-saving and flexible

Reliable and fast

Easy to install

## Packing bin

Flexible, mobile, and ergonomic solution for between packing tables

Items 88064 and 88068

**ERGONOMICS:** The mobile packing bin collects your air cushions, and the packer no longer has to bend down to pick it up.

**EASY:** equipped with wheels.

**SAVE TIME:** The packers keep their focus on packing and do not have to collect the bins.

**FLEXIBILITY:**  
Mobile arrangement.
